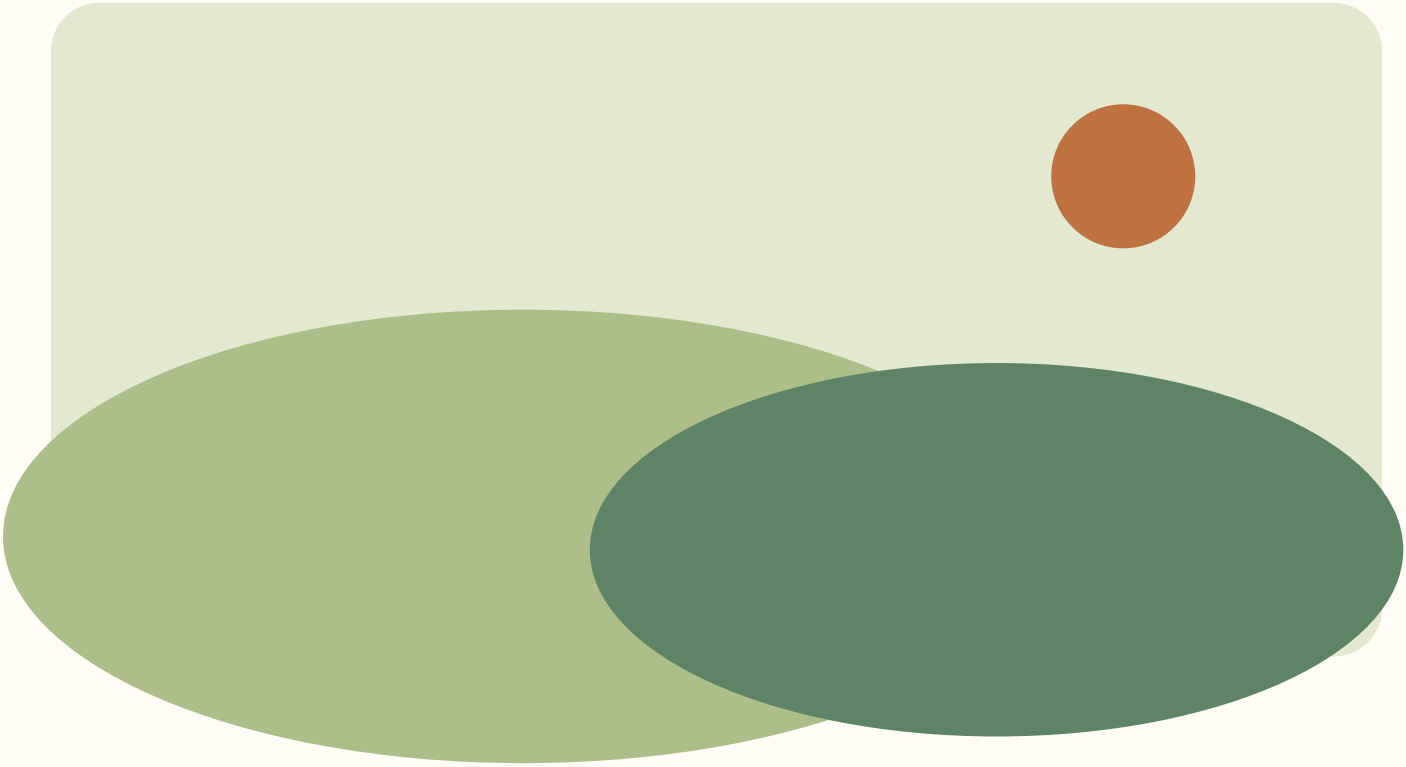
Our shared world.

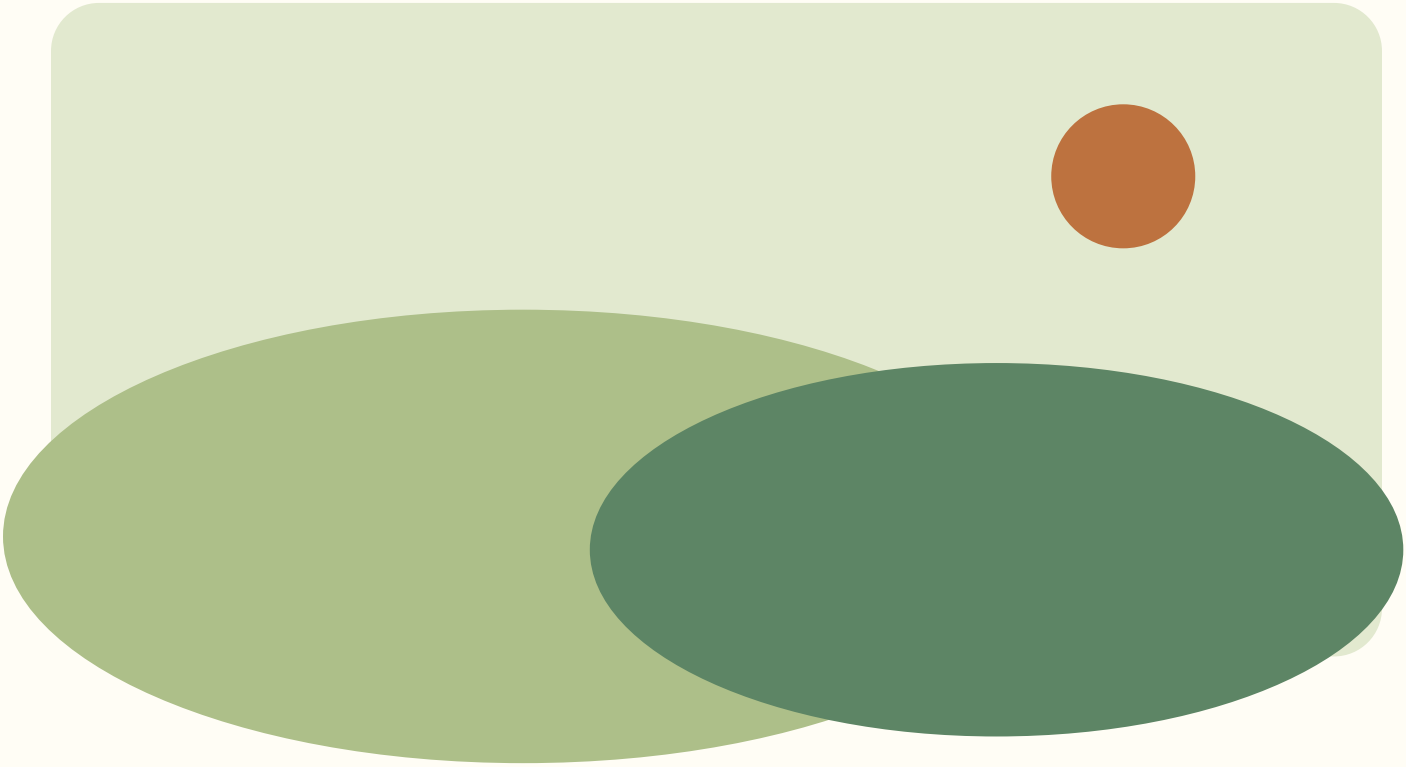
A little curiosity goes a long way.

Everyone has a part in the places we share.



A place for everyone

A community is made of people who care for a place and for one another. We bring different experiences, languages and ideas.



What makes us feel welcome?

Think about a place where you feel welcome.

What helps you feel that you belong?

You can write, draw, speak or use a communication aid.

A small act of welcome

A new classmate joins your group.

What could help them feel included?

Ask how they would like to take part.

Carry on without speaking to them.
